5.b Event management Application - Zoho Creator Command Center Page

Aim:

To design and build a single internal "Command Center" Page in Zoho Creator for the existing **" Event management Application"** application, demonstrating the correct usage of all eleven Page Builder elements (Panel, Board, Chart, Gauge, Search, Form, Report, Snippets, Button, Widgets, and Viewer) so that the Loan Processing Cell has one unified workspace to monitor, manage, and act on loan application data.

Page Elements Used

Page Element Type	Element Name
Panel	Event_Command_Center_Main_Panel
Board	Event_Status_Board
Chart	Event_Category_Popularity_Chart_Widget
Gauge	Event_Budget_Utilization_Gauge
Search	Attendee_Event_Search_Bar
Form	Quick_Event_Registration_Form
Report	Full_Event_Management_Report
Snippets	Event_Management_Checklist_Snippet
Button	Send_Event_Reminder_Button
Widgets	Event_Operations_And_Venue_Widgets
Viewer	Event_Document_Viewer

Page Layout (Section-wise)

Section 1: Overview Strip

- Event Budget Utilization Gauge — Gauge element
- Event Category Popularity Chart Widget — Chart element
- Attendee/Event Search Bar — Search element

Purpose: Gives the organizer a quick overview of event performance, budget usage, and attendee/event lookup.

Section 2: Event Processing Workspace

- Send Event Reminder Button — Button element
- Event Status Board — Board element

The Event Status Board can contain:

- Draft
- Registration Open
- Registration Closed
- Upcoming
- Ongoing
- Completed
- Cancelled

This allows the organizer to visually track the complete event workflow.

Section 3: Detailed Event Data

- Full Event Management Report — Report element

The report can display:

- Event ID
- Event Name

- Event Category
- Event Date
- Venue
- Organizer
- Expected Attendees
- Registered Attendees
- Ticket Price
- Total Revenue
- Budget
- Event Status

Section 4: Reference & Quick Actions — Sidebar

- Event Management Checklist Snippet
- Event Document Viewer
- Quick Event Registration Form — expandable tab

The Event Management Checklist can include:

- Venue confirmed
- Speakers confirmed
- Catering arranged
- Decorations completed
- Invitations sent
- Registration enabled
- Tickets generated
- Staff assigned
- Event reminders sent
- Feedback collected

The Event Document Viewer can be used for:

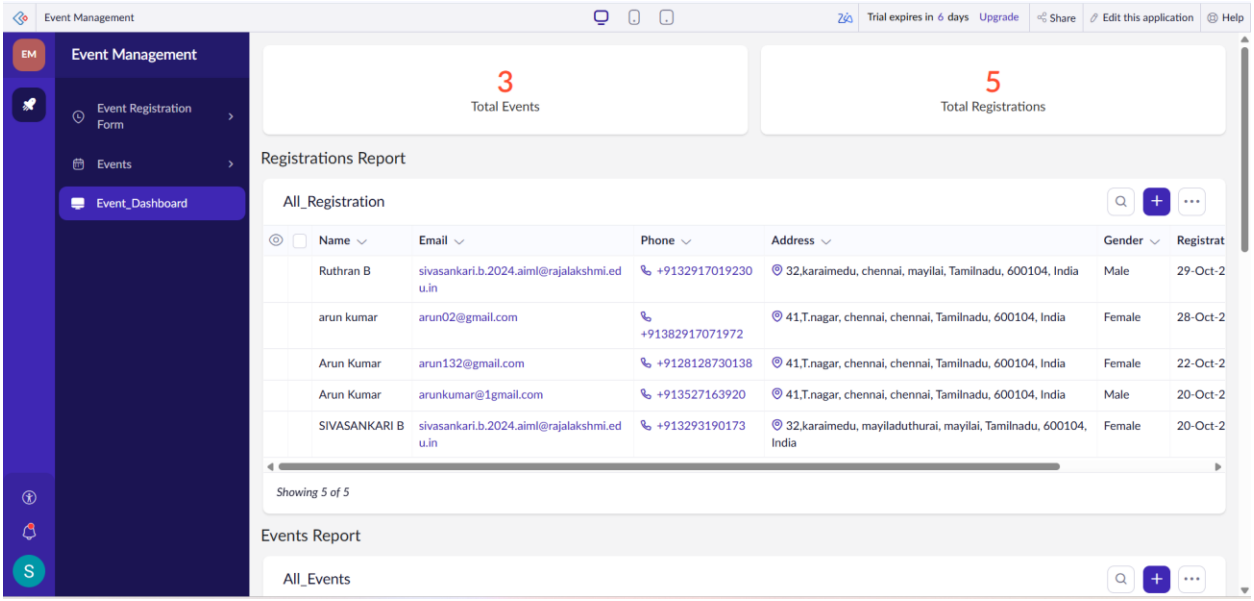

- Event invitation
- Venue agreement
- Speaker documents
- Event schedule
- Sponsorship documents
- Bills/invoices

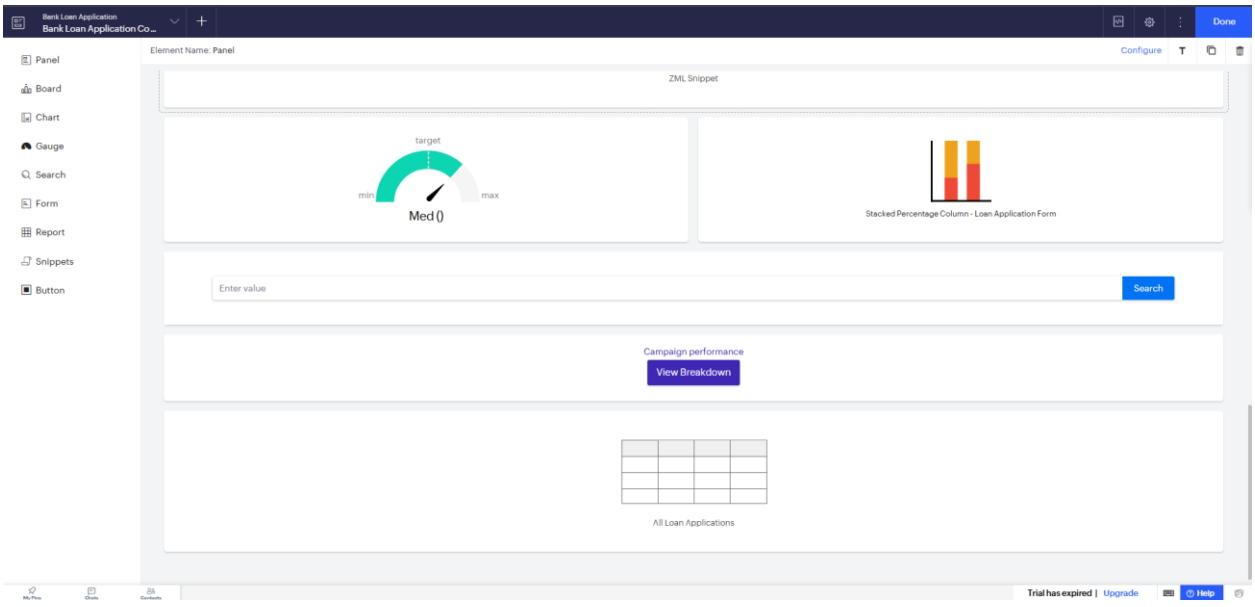

Section 5: Operations Strip

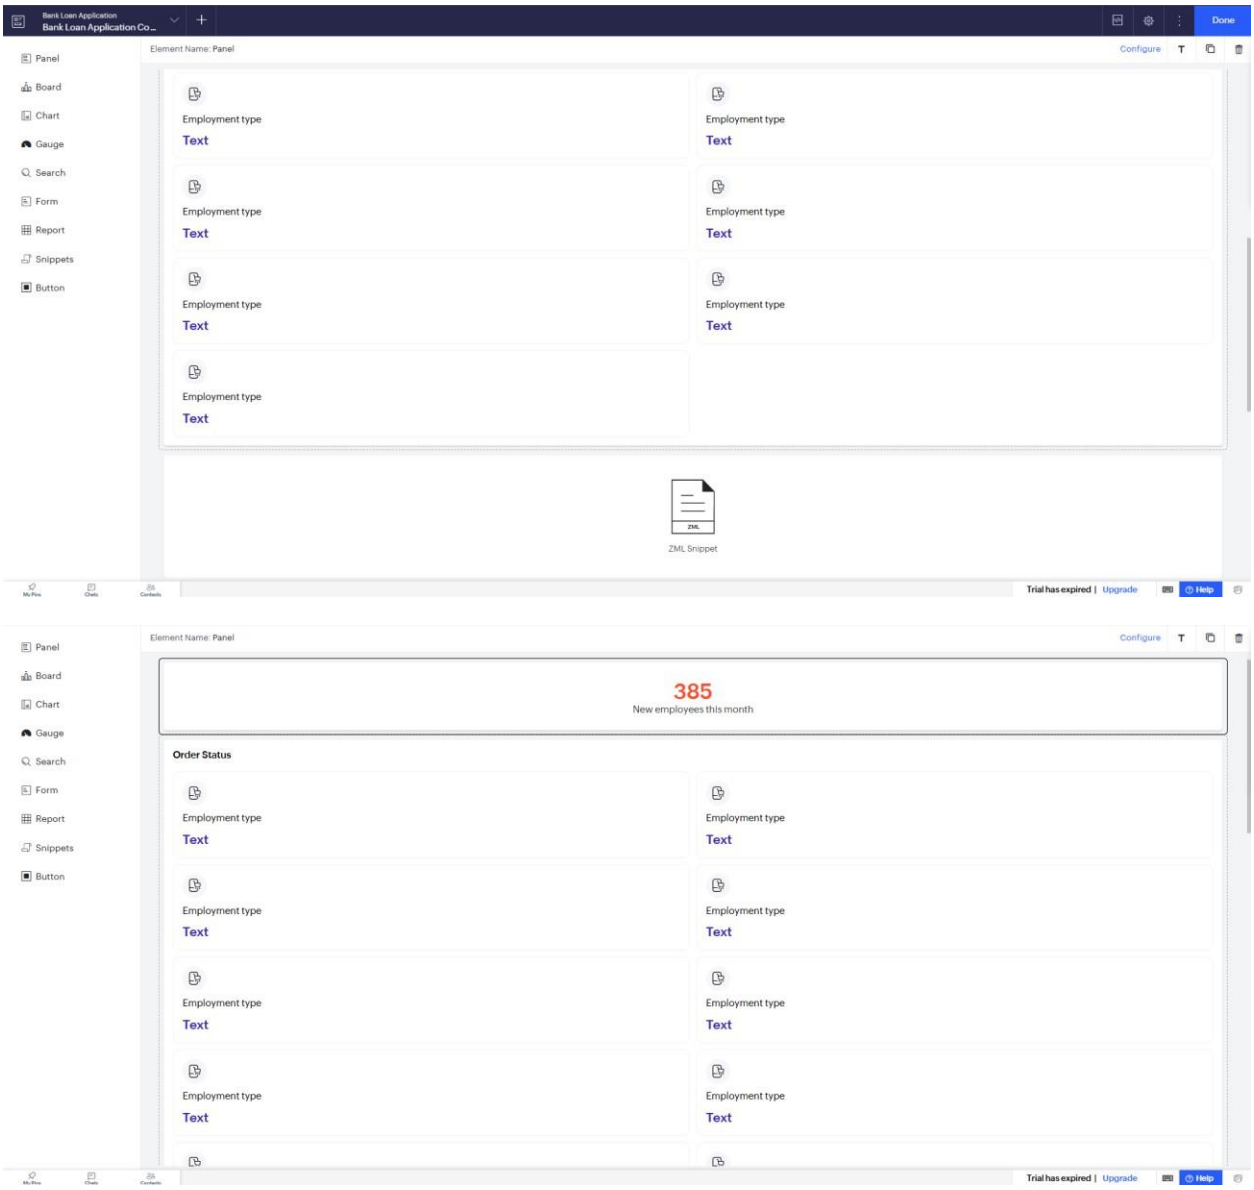

- Venue Availability Widget
- Registration Count Widget
- Budget Status Widget
- Upcoming Event Widget
- Ticket/Booking Status Widget

These widgets provide real-time operational information to the event organizer.
